# HOW TO MEASURE

The first step in locating cushions that will fit your patio furniture is to take proper measurements. You can measure your existing cushions or the patio furniture itself. Once you have taken the measurements, you should be able to easily find the replacement cushions that you need. Below is a sample cushion that demonstrates the different measurements that you will need to take note of. Measurements presented on our site: Width x Length x Thickness (Back=Seat=Length).

## Measuring Patio Furniture

The following are instructions on how to gather measurements from your patio furniture. A good tip is to try to imagine a new patio cushion sitting on the furniture. This helps to know how high and far you would like the cushions to come to the edges.

### **Back Measurement**

Measure the top edge of the furniture down to the seat.

### **Seat Measurement**

Measure from where the fold of the cushion would be out to the front edge of the furniture.

### **Width Measurement**

Measure the inner edges of the furniture that your new cushion sits between.

## Measuring Patio Cushions

The following are instructions on how to gather measurements of your current patio cushions. Keep in mind that older patio cushions may tend to spread or flatten out.

**Chaise Back Measurement**  
Measure from the top edge of the chaise cushion down to the fold.

**Chaise Width Measurement**  
Measure the inner edges of your current chaise cushion.

**Chaise Seat Measurement**  
Measure from where the fold of the cushion is to the front edge of the chaise.

**Club Back Measurement**  
Measure from the top edge of the club cushion down to the fold.

**Club Width Measurement**  
Measure the inner edges of your current club cushion.

**Club Seat Measurement**  
Measure from where the fold of the cushion is to the front edge of the club cushion.

**Bench Length Measurement**  
Measure from the top of the edge of the bench cushion down to the bottom edge.

**Bench Width Measurement**  
Measure the inner edges of your current bench cushion.

## Upholstery Care and Cleaning

One of the best ways to keep Sunbrella® fabrics looking good is to brush off dirt before it becomes embedded in the fabrics and wipe up spills or clean soon after a stain occurs. The quicker you clean spills and stains, the easier they can be to remove.

### Try this first... With a new spill or stain on your Sunbrella fabric.

- Blot (don't rub) liquid spills with a clean, dry cloth. For oil-based spills, apply an absorbent such as corn starch, then remove with a straight edge.
- Spray on a mild cleaning solution of soap (such as Dawn or Woolite) and water.
- Rinse the fabric thoroughly to remove all soap residue.
- Air dry.

### Try this next... If your first try doesn't get the stain completely out.

Though Sunbrella fabrics can be used both outdoors and in, your cleaning methods should differ slightly indoors and out because of the fabrication and manufacturing of the furniture. We recommend using the appropriate cleaning instructions for your application.

## Outdoor Upholstery

### Cleaning Removable Fabric

#### Hand Washing

Soak fabric in a solution of ¼ cup mild soap per gallon of lukewarm water. Use a sponge or very soft bristle brush to lightly agitate the stain. Then rinse thoroughly to remove all soap residue, and allow fabric to air dry.

#### Machine washing

Some removable casings can be washed in the washing machine, however consult the furniture manufacturer before removing the casing as cushion construction may vary. To wash, first close all zippers. Machine wash in cold water on the delicate cycle with normal amounts of mild laundry detergent. For severe mold or mildew, add 1 cup of bleach. Allow fabric to air dry.

### Cleaning Non-Removable Fabric

Prepare a solution of ¼ cup mild soap per gallon of lukewarm water. Use a soft bristle brush to clean, allowing the cleaning solution to soak into the fabric. Rinse thoroughly to remove all soap residue and allow fabric to air dry.

## Indoor Upholstery

- Apply a light mist of mild soap and water using a spray bottle.
- Work the solution into the stain by lightly agitating the entire surface area of the fabric, moving from seam to seam, with a sponge or very soft bristle brush. Avoid scrubbing, and do not use a hard bristled brush or anything that will abrade the fabric.
- Rinse the entire fabric thoroughly to remove all soap residue.
- Blot excess moisture with a clean, soft towel or sponge.
- Blot or wet-vacuum excess water from the entire surface area of the fabric, moving from seam to seam.
- Air dry. Repeat rinsing and blotting until all soap residue is removed.

For severe stains, see our Stain Chart for removal instructions of specific stains.  
[www.sunbrella.com/stainchart](http://www.sunbrella.com/stainchart)

### Professional Cleaners

Inquire about a firm's experience working with Sunbrella fabrics and knowledge of cleaning and re-treatment requirements.

### Mold and mildew stains

Sunbrella fabrics do not promote mildew growth, however, mildew may grow on dirt and other foreign substances if not removed from the fabric. To remove mold or mildew:

- Prepare a solution of 1 cup of bleach and ¼ cup mild soap per gallon of water.
- Spray on entire area and allow to soak into the fabric for 15 minutes.
- Clean entire surface area with a sponge, clean towel or very soft bristle brush.
- Rinse thoroughly to remove all soap residue.
- Air dry.

For severe mold/mildew growth, bleach quantities may be increased.

It is best to clean the entire surface area of the fabric to avoid water rings and stains.

For information on cleaning other popular stains, see our Stain Chart. [www.sunbrella.com/stainchart](http://www.sunbrella.com/stainchart)

### Machine Washing

Some removable casings can be washed in the washing machine, however consult the furniture manufacturer before removing the casing as cushion construction may vary. To wash, first close all zippers. Machine wash in cold water on the delicate cycle with normal amounts of mild laundry detergent. Allow fabric to air dry.

### Oil-Based Stains

Immediately apply an absorbent such as corn starch directly on the oil-based stain. Let sit for 10 minutes and remove the excess using a straight edge or ruler. This helps remove the stain and prevents it from being pressed into the fabric. Then proceed with the cleaning process.

### Seam-To-Seam Cleaning

When cleaning upholstered pieces, clean the entire surface area of the fabric, from seam to seam, instead of rubbing the fabric in a circular motion on the stain. This method, along with an extractor, may be required in order to avoid water rings and stains.

### Retreating Sunbrella Fabrics

Sunbrella fabrics are treated with a proprietary water and stain repellent finish that is designed to last for several years, but may require replenishing after a thorough cleaning. Glen Raven® recommends 303® Fabric Guard™.

For more information, visit [www.303products.com](http://www.303products.com).

### Applying 303 Fabric Guard:

- Clean Sunbrella fabric, using one of the cleaning methods.
- Allow Sunbrella to completely air dry.
- Apply 303 Fabric Guard in a well-ventilated area following instructions on the container.
- Apply 303 in a thin, even coat and allow fabric to dry completely.
- Apply a second thin, even coating of 303. (Two light coatings are more effective in restoring fabric water resistance than a single heavy coating.)

### Helpful Hints

Avoid scrubbing, hard bristle brushes or any other abrasive cleaning method.

Sunbrella should only be allowed to air dry.

Protect the area around your Sunbrella fabric when using bleach or other chemical solvents that may discolor non-Sunbrella fabrics. Always rinse Sunbrella thoroughly.

Bleach can have harmful effects on the natural environment around you. Please follow all safety and environmental precautions according to the bleach label.

If fabric has some wrinkling, use an iron on the synthetic setting. As iron temperatures may vary, first test a small inconspicuous area before ironing the entire piece.

DO NOT use a steamer or an iron set to the steam setting.

## PRODUCT INFORMATION

- 100% Solution Dyed Acrylic Fabric
- Made in the USA
- 5 Year Warranty  
(visit [www.outdura.com](http://www.outdura.com) for complete warranty details)
- Water and Stain Resistant
- Repels Mildew and Mold
- Easy to Clean (bleach cleanable)

## CARE AND CLEANING INSTRUCTIONS

### CLEANING INSTRUCTIONS FOR NORMAL STAINS

Remove any loose dirt. Prepare a mixture of cold to lukewarm water, do not exceed 100° F (38° C), and mild soap. Rub in mixture with a soft brush and allow the mixture to thoroughly soak into the fabric. Rinse well with water and air dry. Do not machine dry.

### CLEANING INSTRUCTIONS FOR STUBBORN STAINS

Remove as much surface dirt as possible. Soak fabric for 1 hour in a mixture of 1 gallon (4 liters) cold water, 1/2 cup bleach, and 1/2 cup mild soap.

Rub in mixture with a soft brush and rinse thoroughly with cold to lukewarm water and air-dry. Never use water over 100° F (38° C). Do not machine dry. Detergents can be used on Outdura without harm; it may however remove some of the water and stain resistant properties. A simple spraying of a post cure fluorocarbon will restore these properties following the manufacturer's instructions on the package. These sprays can be obtained through a dry cleaning supply store or stores that sell marine related products.

For more detailed cleaning instructions for difficult stains, please refer to the information on [www.outdura.com](http://www.outdura.com).

# ABERCROMBIE Outdoor

## ATTRIBUTES

### 100% SOLUTION DYED

Woven with 100% solution dyed fibers for maximum protection against fading or degradation. Over 1500 UV hour rating backed by our 4 year residential warranty.

### BLEACH CLEANABLE

Protects your furniture against mold and mildew. See our 'Cleaning & Care' guide for instructions on safe bleach cleaning.

### SOIL/STAIN RESISTANT

Our *PolyPro* fibers are naturally soil and stain resistant and do not promote mold or mildew growth. See our 'Tough Stains Instructions' guide for how best to clean up everything from red wine to motor oil.

### SUPERIOR DURABILITY

These fabrics are rated for heavy duty residential abrasion and outperform most solution dyed acrylic fabrics in abrasion and pilling tests.

### 100% MADE IN THE USA

These fabrics are 100% Made in the USA. From yarn, to weaving, to finishing, it's all made right here.

## **Suntastic 1000 Branded Solution Dyed Woven Polyester Fabrics**

Developed by American Decorative Fabrics, this new category of Performance fabrics represents forward fashion, high durability, easy care, softer hand plus value oriented options for Indoor and Outdoor Living. With a UV rating of more than 1,000 hours and abrasion for textures of over 50,000 Double Rubs, this Collection represents a unique new opportunity for the worlds of both Residential and Hospitality decoration. These fabrics are available in textured Solids, Stripes, Jacquards and Embroideries etc.

### **Suntastic 1000 is made of recyclable solution dyed polyester**

Solution dyed polyester is given its color by applying the dye directly into the molten polymer. This process is friendlier to the environment and eliminates the waste water and effluent discharge associated with piece dyeing or yarn dyeing. The UV performance of this process is over 25 times greater than the residential industry standards for color fastness to UV exposure. The color transfer and crocking performance is improved to the maximum rating of industry standards.

#### **Care and Cleaning Instructions:**

To keep Suntastic 1000 fabrics looking their best, use these simple and easy cleaning instructions: Apply mild soap and warm water directly to the soiled area of the fabric with a soft brush or sponge.

Rinse thoroughly  
Air dry.

#### **For Stubborn Stains and Mildew:**

Add one cup of bleach per gallon of soap and water. Apply directly to the stain with a sponge or soft brush.

Rinse thoroughly.  
Air dry.

If stains are oil-based, use some dishwasher liquid to remove the oil before proceeding as above.

### **Suntastic 1000 Testing Specs**

<b>SOLID SOLUTION DYED</b>	<b>Test Method</b>	<b>Suntastic 1000</b>
Wyzenbeek Abrasion	ASTM D 4157-13	> 50,000 rubs
Light Fastness	AATCC 16.3	Grade 4.5 - exceeds 1000 hours

# COVINGTON OUTDOOR

SOLUTION DYED PERFORMANCE OUTDOOR/INDOOR FABRIC

### PRODUCT OVERVIEW

Introducing Covington Outdoor, a collection of neutral and bright fabrics developed for indoor/outdoor living. Constructed of solution-dyed performance fibers, Covington Outdoor features fabrics that are both durable and UV/ fade resistant while retaining a soft, cotton-like hand.

### COLLECTION FEATURES

- Soft Hand
- Light Weight
- Heavy Duty Abrasion Performance
- UV Resistant – Guaranteed for 2,000 Light Hours
- Fade Resistant – Guranteed not to Fade for 3 years
- Stain Resistant Finish
- Bleach Cleanable
- Mildew Resistant
- Appropriate for Residential, Commercial and Healthcare Applications
- Solution Dyed Fiber is Colored Throughout Whereas Non-Solution Dyed Fabric has Color on the Surface Only

www.davidrothschildco.com

## **DAVID ROTHSCHILD COMPANY OUTDOOR FABRICS**

David Rothschild Outdoor Fabrics are sun resistant and finished with super water repellents and anti-microbials that encapsulate the individual fibers in the yarns. From a technical point of view, the complete after-treatment does a much better job at repelling water than just a normal Scotchgard type stain repellent. Water can go between our yarns, but the yarns themselves repel water. The anti-microbial retards mold and mildew making the fabrics suitable for the most humid atmospheres, or for all-purpose rooms where wet bathing suits might frequent.

### **CLEANING INSTRUCTIONS**

David Rothschild Outdoor Fabrics should be cleaned regularly before substances such as dirt and food particles are allowed to accumulate and become embedded in the fabric. The fabric can be cleaned without being removed from a piece of furniture by simply brushing off any loose dirt, etc. and cleaning with water and a mild soap solution (no more than 100 degrees F).

#### **Cleaning Solutions**

Our recommended cleaning solution for most stains consists of 0.5 ounce of antibacterial dishwashing liquid to 22.5 ounces of water. Note that the cleaning solution will also be in contact with the furniture frame, cushions, and your skin so some care and forethought is required.

#### **Cleaning Method**

1. Remove any residual soil by lightly brushing or scraping the stain. Attempt to remove stain by sponging with water.
2. If further cleaning is needed, apply light mist of our recommended cleaning solution using a spray bottle.
3. Work the solution into the stain by lightly scrubbing the area with a sponge or very soft bristle brush.
4. Remove cleaning solution with a wet-vac if possible, but at the very least blot with a clean soft towel or sponge to remove the stain and excess cleaning solution. Repeat steps 2-4 until stain is removed.
5. Rinse the affected area thoroughly with clean water applied with a spray bottle and extract the remaining moisture using a wet-vac, sponge, or towel. Repeat rinsing method if needed to thoroughly remove cleaning solution from the fabric.

# PERFORMANCE

Enjoying life. **Indoors** and **Outdoors**

## CARE AND CLEANING

Your performance fabric will appreciate proper maintenance and sensible TLC. When dirt first appears, simply brush away. When spills occur, simply wipe. Water based cleaners work great on common stains.

For stubborn stains, such as mold or mildew, a 20% solution of bleach may be required. Rinse thoroughly and air dry. While a bleach solution will not harm your PERFORMANCE fabric, it can damage clothing or irritate skin without proper rinsing.

	INDOOR	OUTDOOR
Sunlight Resistance	1500 hours	1500 hours
Water & Stain Repellent Finish	Standard	More durable
Antimicrobial Finish	Not applicable	Prevents mold & mildew
Cleanability	Use water based cleaning agents and/or a 20% diluted bleach solution	Use water based cleaning agents and/or a 20% diluted bleach solution

## Performance

All branded Parà Tempotest® fabrics are treated with Teflon® Extreme, which provides double-action protection and a self-cleaning system that repels water and oil-based stains. All Tempotest® fabrics have a special type of finishing, called Hi-Clean, that creates an impenetrable barrier against mold, fungus, and rotting and makes the fabric repellent to water, grease, and oil. Hi-Clean makes the fabric self-cleaning, allowing dirt, fine dust and pollution to wash away with water and rain. Best of all, Tempotest® continually receives the Oeko-Tex Standard 100 certificate of approval for being free of harmful substances.

TempotestUSA.com

## We stand behind our fabrics

Our warranties exclusively cover abnormal and excessive color degradation and loss of sun screening capability due to normal sun, salt, and weather exposure for the listed amount of time from the date of purchase.\*

10  
YEARS

Tempotest® solution-dyed acrylic awning and marine fabrics come with a 10-year warranty.

6  
YEARS

Tempotest Home® solution-dyed acrylic indoor/outdoor fabrics come with a 6-year warranty.

5  
YEARS

TempotestStar®, TempotestStar FR®, STARSSCREEN® and TempotestStar Home® solution-dyed polyester fabrics each come with a 5-year warranty.

You can find Tempotest® brand fabrics at your favorite retailer:
