# To Our Customers

---

It's still hard to believe that our parents, Ernie and Pierette, started Casual Cushion in a small 1800 square foot facility over 40 years ago. Since then, we've grown into one of the premiere outdoor cushion manufacturers in the country.

We now have over 100 employees and over 250,000 square feet of operational space. We've even been recognized by our governor and the White House for our contributions to American employment. We continue in our parents' traditions by maintaining the values they have ingrained in us and we believe these values are the core of our success:

- to treat our employees, customers and vendors with respect
- to offer a great product at a fair price
- to view mistakes as an opportunity to learn and grow
- to take the time to listen to people and understand what they need

The pandemic brought along a new set of challenges for our company. Due to high demand for products, low availability of materials, and our need to keep our employees safe and healthy, we had to make difficult decisions that affected our customers. We are so grateful for your patience and loyalty during that time. As we move forward, we'll continue to communicate necessary changes, adjust to our customer's needs and keep the health and safety of our employees at the forefront.

One of the greatest benefits that makes us truly stand out is our customer service. From the time an order is received, until it is shipped and thereafter, Casual Cushion is responsive to the needs of our customers and will go above and beyond expectations to bring great service with a great product. We encourage new and potential customers to reach out to ANY of our existing customers for an honest opinion, as we are confident that they will have great things to say about our company.

From all of us at Casual Cushion, we thank you for the opportunity to serve you and we hope to continue providing you the same quality, selection, delivery and customer service for many more years to come!

The Siesel Family

# Have a seat. Kick up your feet.

Our cushions weren't made in a day.

## Our products are handmade in South Carolina.

Many things have changed in our industry since we started Casual Cushion 40 years ago. Fabric options have evolved so much that they feel like they should be made for indoor furniture. Furniture has gone from being made from PVC pipe to synthetic wicker, exotic wood and hand-finished aluminum.

The one constant at Casual Cushion is that our cushions will continue to be made by hand by skilled people who are passionate about what they do.

Although our equipment may be better, the process is the same. As many as 9 employees may be involved in creating your cushion before it's shipped out.

We begin our process with cutting the fabric; we utilize digital patterns that are either cut, by automated machine or by hand, by experienced professionals to ensure consistency everytime.

From there, our "prep" department creates the boxing, ties (cloth or Velcro®), zippers and all other parts to make sure each cushion has what it needs prior to sewing.

Our cushions are then sewn by experienced people who pay close attention to details such as matching stripes, even through the boxing. They are proud to put their sewing number on the back of your law label.

After sewing, during the process of "turning", the first round of quality control happens. Each cushion is sewn inside out, and this process turns the skin back the correct way and allows our employees to check for any imperfections.

The next step is stuffing our products, which happens 1 of 4 ways: by hand, by deep seating machine, by a horizontal machine or blown (pillows). Before our cushions are stuffed, the cores are fabricated in-house or sourced by local suppliers. After each pillow has fiber blown into it, it is then weighed to ensure consistency. After our products are stuffed, they are either sewn or zippered shut.

Next is the final inspection to remove loose threads and to make sure the cushion is produced correctly. The cushions are then cleaned, packaged, labelled and boxed so they are ready to be beautifully displayed in your store or delivered to your customer.

Orders are then consolidated and shipped. As you can see, the process is extensive, but we know that our customers are more than worth the effort!

# CasualGuard Water Repellent Wrap

**CasualGuard is superior to other water repellent options because:**

- It can be used with any fabric
- The cushions can be reversed as there are no vents required
- The cushions have a better feel and are more comfortable than cushions made with treated fabric.

Available on select Hanamint, NCI, Erwin, Jensen and Kingsley Bate deep seating.
